

I feel stuck.

Make it Better for

TAY

Make the process comfortable for youth.

If the following describes you, a family member or a client of yours, we can help.

- Youth aged 16 to 24 who live in Kingston, Frontenac, Lennox & Addington
- Youth who have persistent mental health (MH) and/or addiction issues
- Youth who need help connecting to community services (i.e. mental health, addictions, housing, education, employment, financial, etc.)
- Youth who need help to transition from children and youth mental health and/or addictions services to adult mental health and/or addictions services
- Youth who need extra support getting their life back on track and discussing their options

*Services are offered in Kingston and Napanee, and are free and confidential.

I'm struggling.

Help for TAY

Transitional Aged Youth
Ages 16 - 24

Why Transition Services?

Services for children end at age 18 and services for adults begin at age 16, making it necessary for youth to move from one agency to another to continue receiving mental health services.

Some youth require connections to needed community supports and services.

Our Mission

To support youth holistically, connecting them to appropriate ongoing services and enhancing their skills toward independence.

Our Goal

To provide support and stability to youth during the transition process and assist them with their emotional well-being and day-to-day activities.
